Saunton home learning - 19/9/25

This week in English the children have been exploring how authors use speech to develop characters. In maths we have been exploring place value in numbers beyond 1000 and using our knowledge to estimate. We have also been exploring our history topic, and we have started learning all about the pirate that used to rule Lundy Island and in science we have been categorising animals based on their diets.

Home learning

Librarian badge

To ensure our book areas are being looked after and enjoyed, the pupils will have chance to take on the role of a school librarian. For your home learning, have a go at designing a badge suitable for a librarian. Please draw your design on A5 paper and write your name, year group and class on the back of your design. There will be a prize for the winning design!

Important information

Reading

Today, your child will have brought home a letter and pupil login for Boom Reader. Please follow [Parents | BoomReader](#) to download the app. Use the pupil login information on your letter to link to your child. This will replace home learning books and be the platform for parents to log their child's reading from now on. The whole school expectation is that parents support their child to practising reading at home five times per week. This could be 5-10 minutes of reading, five times across the week. Thank you for your support.

Pupil login information

Your child will be bringing home a booklet with their boom reader, timetable rockstars and my maths login information inside. Please keep this safe so that your child can always access our various online subscription platforms.
