Tarka class learning

The children enjoyed using their observation skills to sketch and paint some roses, using watercolours. They wrote valentine's postcards for someone they love.

Tuesday was Safer Internet Day. This year the focus is on AI. The children read a story and discussed the difference between humans and voice assistants. They were able to distinguish things that humans can help with and things that voice assistants can help with.

The year 2 children had a great afternoon with Natalee building structures. The aim was to create a waterproof structure, selecting the most suitable materials. The children were using plenty of learning powers: resilience, collaboration, communication and resourcefulness!

Year 1s enjoyed conducting another Science experiment with Miss Seward, testing raisins, cranberries, peas and stones to see how much they 'danced' in lemonade!

In music, we practised keeping a steady pulse and clapped a rhythmic sequence using words from the school environment for inspiration.

Forest School - year 1

After half term it will be the **year 1s** turn to participate in forest school activities with Natalee (Year 2 will be continuing their science learning in class with Mrs James).

Please remember to send your child in with named, appropriate warm/waterproof clothing and wellies every Tuesday. They are outside for the whole afternoon and in all weathers!

Home Learning Task:

Home learning: practise your understanding of number, addition and subtraction by playing a board game with your family. You might like to play: Snakes and Ladders, Shut the Box, Higher or Lower (card game) - you could also play this online: [Play Your Cards Right - mobile friendly](#)
