

Executive Head Teacher: Melanie Smallwood
Head of School: Karen Lintin

Barum class learning

In English, we have been learning to write adverbial phrases and similes in our dragon poems.

This week in Maths, we have been drawing and making arrays to show multiplication and help us solve multiplication problems. We have finished making our clocks and have been practising telling the time to the hour and half past.

In History, we ordered images of different types of transport thinking about what was invented first to which form of transport is the most modern invention. We watched a clip about the Wright Brothers and their first flight, we then discussed what the most interesting facts we could remember were.

Home Learning

To support our learning about 'Plants' in science, have a look in your garden or local park and see how many different plants you can identify. Write a list or draw them in your home learning book. I have also set some more 'Time' homework on MyMaths.

Information

This term our PE day will be on Monday and we will be taking part in Forest school on Tuesdays.

Reading

Well done to those of you who managed to read 5 times this week! We aim to get the recording sheets stuck in next week, please keep writing in the book to let us know when your child reads at home.
