Saunton home learning - 5.12.25

This week in English we have been writing our own rough guides to different habitats the children created themselves. In maths we have completed our unit on addition and subtraction, and we are now moving on to our multiplication and division unit. In science we have been exploring joints in our bodies and in topic we have been exploring what life would have been like for the soldiers stationed in Northam Burrows.

Home learning

Two-week home learning project

Please create a Christmas decertation that we can use to decorate the classroom. I can't wait to see them!

Reading

Hopefully, all children have now given you their homework login booklets, with their Boom Reader details inside. It has been lovely to see that some children are already customising their avatars and are logging their reading! The whole school expectation is that parents support their child to practising reading at home five times per week. This could be 5-10 minutes of reading, five times across the week. Thank you for your support.

Time tables

Please make sure you are practicing your timetables on times table rockstars for at least 5 minutes a day.
