Head of School: Karen Lintin

Barum class learning

This week in English we have explored writing expanded noun phrases. We have looked at the different adjectives used in our text and grouped them according to what they are describing for example; colour, size, shape, movement, or importance.

In Maths we have been learning column subtraction, with no exchange and then exchanging in the ten's column.

In Art this week, we have produced some amazing art, first we worked hard to complete our collage backgrounds and then added a rainforest animal which we have outlined and coloured in the style of Romero Britto.

Home learning:

To support our Science learning about plants, over the half term when you are out see what different plants you can spot, find out the name and some information about the different plants you see, you could record this by making a plant fact poster or take some pictures and email them to families to share with the class.

Have a lovely half term break!
