### **Tarka class learning**

In maths this week the children have been comparing numbers using the language of greater than, less than and equal to. The year 1s were introduced to the  $<$ ,  $>$  and  $=$  symbols and used them to compare 2 numbers. The year 2s used these symbols to solve problems and order more than 2 numbers. In English, the Year 1s thought of adjectives to describe the fruit they eat at snack time and the year 2s wrote sentences that included expanded noun phrases.

In computing, the yr1s have been finding ways to sort and group objects and the year 2s used a tally chart to collect information about favourite colours and presented their data in a pictogram. They have all thought of some fantastic questions for their work in history and in music the children enjoyed learning and performing a rhythmic pattern using their hands and knees. We have been keeping a close eye on the weather this week and have been recording it on a chart in class.

### **Home Learning Task:**

For home learning this week ask a grown-up to help you make a weathervane. Use your weathervane to find out which direction the wind is blowing. Maybe you could keep a record of the wind direction each day for a week.
