

Executive Head Teacher: Melanie Smallwood

Head of School: Karen Lintin

Barum class learning

This week in English, we drew comics and added the story and speech to our comics, we also wrote some fantastic recounts about science day.

In Maths we have been exploring number lines. We have learnt that the start and end points can be any number and that the intervals on the number line can also be any amount. We then practised estimating numbers on a blank number line by firstly identifying the midpoint to help us.

This week in art, we sketched and painted some super landscapes. In PE the children really impressed me with their throwing and catching skills.

Home Learning:

The children thoroughly enjoyed the science day this week. Home learning is to use your science skills. With a grown up, follow the link below to the Marvin and Milo website then pick and have a go at one of the experiments at home.

Reading:

Thank you to those of you who have logged your child's reading on Boom Reader. If you have logged 5 reads this week, your child has received a class merit and sticker 😊 The whole school expectation is that parents support their child to practising reading at home **five times per week**. This could be 5-10 minutes of reading, five times across the week. Thank you for your support. Please follow [Parents | BoomReader](#) to download the app.
