Head of School: Karen Lintin

Tarka class learning

The children have been using their resilience and perseverance in their Forest School sessions recently. They have learnt about freestanding structures and designed and made their own structure to contribute to a class village.

We had a fun PE session, developing our passing, dribbling and shooting skills for football!

In Maths, we used rulers to measure objects in cm. The children were careful to line the object up with the 0 on the ruler to get an accurate measurement.

Tarka class enjoyed using oil pastels to draw daffodils and roses this week. They were using their observation skills to copy the shapes and colours.

We have discussed Mother's Day and why we celebrate it. The children thought of some kind things they could do for their mums.

Home Learning

Do something kind and helpful for mum on Mather's Day this Sunday 😊

What can you **measure** with a ruler or tape measure around your house? Remember to measure in **cm**.

Reading

Well done to those of you who managed to read 5 times this week! Please keep reading and remember you can read any book/magazine/poem/recipe/leaflet to go towards your 5 reads per week!
