Saunton home learning – 20/11/2026

This week in English we have been writing our shared write about the experience of evacuees in North Devon in WW2. In maths, we have been learning to use the grid method to multiply 2-digit numbers by a 1-digit number. In science we have been learning about how sounds are made and in history we have been learning about morse code.

Home learning

This week in class we have been learning about how morse code was used in WW1 and WW2. For homework this week code a message to share with your family using the morse code sheet I have given you.

Science resources

Please continue to collect and bring in jam jars and pringles tubes for some of our upcoming science experiments.

This will be used by the whole class, so there is no need to name them.

We currently do not have enough

Reading

The whole school expectation is that parents support their child to practising reading at home at least 5 times per week. This could be 5-10 minutes of reading, five times across the week. Thank you for your support.

Time tables

Please use your times table rockstar login and have a go at using it to help practise your times tables.
