### **Lundy Class**

This week the Y5 children have been learning about Shackleton's expedition to Antarctica. They have written a short diary and have been developing their complex sentence construction. In maths, the children have been multiplying decimals and using powers of ten to help them solve problems mentally. The children have been designing their printing tiles in art to represent sea life and themselves. In science, the children have been deciding if a characteristic is either an inherited or an environmental one.

### **Y5 and Y6 Home Learning**

#### **Reading**

We expect you to read at least 5 minutes every day - you can read to an adult (as it's always good to read aloud to practise your expression) or talk to your adult about what you have read.

#### **Maths**

Practise your 6 x table for a test next week.

Make sure you can spell the following words:

**environment, familiar, foreign, temperature,  
physical, sacrifice, parliament**
