Lundy home learning - 19.09.25

This week in Lundy class, we have been writing and publishing our amazing poetry based on *I am Cat*. They have definitely 'wowed' the adults with their determination to use our new skills in their independent writing! In maths, we have been converting various units of measure, using our multiplication and division knowledge to help us. In science, we recreated the circulatory system, having pupils represent the blood, lungs and body, showing how blood moves throughout the body.

Home learning

We have had lots of amazing PowerPoints sent in - well done, year 6! Next week, we will find out the roles that the children have been given.

To ensure our book areas are being looked after and enjoyed, the pupils have the chance to take on the role of a school librarian. For your home learning, have a go at designing a badge suitable for a librarian. Please draw your design on A5 paper and write your name, year group and class on the back of your design. There will be a prize for the winning design!

Reading

Today, your child will have brought home a letter and pupil login for Boom Reader. Please follow [Parents | BoomReader](#) to download the app. Use the pupil login information on your letter to link to your child. This will replace home learning books and be the platform for parents to log their child's reading from now on. The whole school expectation is that parents support their child to practising reading at home **five times per week**. This could be 5-10 minutes of reading, five times across the week. Thank you for your support.
