## **Barum class learning**

We had a fantastic end to the week with a visit to 'Rosemoor Gardens'. We were very proud of the children's behaviour, they represented our school amazingly, showing respect to the environment and the other visitors. We all had a lovely day; exploring the gardens, planting some cornflower seeds and making a clay animal using natural materials found in the gardens.

This week in English, we have completed our shared write dragon poems, and have planned our own poems to write next week.

In Maths, we have been learning about division, we have learnt to divide by grouping and sharing.

In History, we learnt some facts about the wright Brothers and have started to create a fact file about their lives and achievements.

## **Home Learning**

To support and practise our multiplication learning in Maths, I have set some homework on 'MyMaths'.

## **Information**

This term our PE day will be on Monday and we will be taking part in Forest school on Tuesdays.

## **Reading**

Well done to those of you who managed to read 5 times this week! We aim to get the recording sheets stuck in next week, please keep writing in the book to let us know when your child reads at home.
