Tarka class learning

In science, year 1 recapped their learning on materials. Year 2 did an experiment at Forest School, testing different materials to see if they were waterproof. In the classroom, all the children have been busy designing and constructing houses, using different materials.

We continued to learn more about the 7 children from around the world in *This is How We Do It*. Tarka class each chose a child to write about, using present tense verbs.

In maths, we focussed on the place value of numbers up to 100. Year 2 practised partitioning two-digit numbers in different ways.

We are learning about the weather and how it affects our lives in Geography. The children enjoyed making books about weather, writing about what they like to do in different weathers and adding interesting facts! In History, the children were finding out about influential people from the past.

Home Learning Task:

In family groups this week we were finding out about Chinese (Lunar) New Year. We were very interested in the 12 animals that represent each year. This year it is the year of the horse. For home learning, find out which Chinese animal year you were born in and create a picture of your animal.
