Head of School: Karen Lintin

Exmoor Home Learning - 25.4.25

The children have worked hard settling back into the school routine, we have had to remind ourselves of some of the expectations at school but seem to be back into the swing of it now. We've started our new writing sequence based on the book; *Ug* by Raymond Briggs, the children have enjoyed reading the book and spotting anachronisms. In maths, the Year 4's have been consolidating their understanding of times tables and the Year 5's have been using their understanding of converting fractions to add and subtract unlike fractions. In science, we completed our solubility experiment, where the children tested whether certain substances dissolved in water.

Class notices

Please ensure your child has a closable water bottle in school at all times, especially now the weather is warming up.

Home learning:

Reading

We expect everyone to be reading at least five times a week. Please see the front of your home learning book for the expectations.

Topic

Our next topic is the Stone Age, please come up with some questions about the stone age you hope to find the answers to during our topic lessons.

Year 4 times table test

The year 4 times table test is fast approaching, in anticipation of this please practice as much as you can on the website below. It is very similar to how the actual test works.
