## Reading

Well done to those of you who managed to read 5 times this week! Can you read your guided reading book to a sibling/cousin/friend and try to use your best story telling voice? You could practice by reading to your teddies/toys.

## Barum class learning

This week in English, we found out some facts about Julia Donaldson and wrote a shared biography about her life and achievements, using past tense verbs and conjunctions 'when' and 'as' to start our sentences.

In Maths, we finished our unit on fractions, we can now recognise and find a quarter, a third and a half of shapes and amounts of objects.

In Music, we have been learning to sing a song called 'Friendship' and have also learnt to play the song on the Glockenspiel. I have been super impressed with the children's musical ability.

The children were very tired on Friday after a busy Sports Day! We had a fantastic active day, completing multi-skills activities in the morning and races in the afternoon. Thank you to the Sports Leaders, who visited from Park School, to help all day.

## Home Learning

On Friday we had an assembly with a member of staff from Barnstaple library today. They discussed the summer Book Quest (your child has bought home a bookmark with more info on this). For your home learning, please visit the library! They have some beautiful new picture books and Boromi toy bags to explore. If you do not have a library card, please sign up for one
