Exmoor Home Learning - 28.2.25

We have had a wonderful first week back after half term, the children have settled back into their routines straight away. They've had a great week starting our new poetry sequence in English and our additive reasoning sequence in maths. In computing, we exported and analysed the data collected from the microbits that some of the children coded as environmental data loggers before half term. In science, the children had a lot of fun trying to melt a square of chocolate in the fastest time possible, they discovered that running it under hot water was the fastest, but there were some ingenious methods used, including putting it in their shoe, under their armpit and out in the sun!

Home learning:

Reading

We expect everyone to be reading at least five times a week. Please see the front of your home learning book for the expectations.

World Book Day

As it is World Book Day on Thursday, we would like you to read your book in an unusual place. Take a photo and print it to bring into school, draw a picture or be ready to talk about where you read your book.

Times Tables

Continue to practise all of your times tables up to 12.
