### **Lundy home learning - 09.01.26**

It has been a busy week settling back into class this week. We have been learning how commas change the meaning of sentences and the different places in sentences that we need to use them. In maths, we practised finding the properties of 3D shapes. In geography, we designed flow charts to help the reader answer the question "Should I live on a tiny island?", using our understanding of why remote islands often have a low population

### **Homework**

This week, please complete the sheet on commas. This is to consolidate our English learning. Homework is due in on **Thursdays**; if your child forgets it, they can bring it on Friday. If they do not complete it, or return it on the Friday, the expectation will be for them to complete it that lunchtime. If your child loses their homework, it is their responsibility to help themselves to a spare from the homework basket on the Thursday when they are reminded about bringing in homework; this is all part of becoming 'secondary ready'. The task will be explained to your children and is straightforward enough that they should not need help from parents.

### **TT Rockstars**

Please keep practising as much as you can. A new competition is coming soon...

### **Reading reminder**

Our whole school expectation is that parents support their child to practising reading at home five times per week. This could be 5-10 minutes of reading, five times across the week. These reads can be logged on the Boom Reader app or website. Thank you for your support.
