### **Lundy home learning – 30.01.26**

This week, we have been persevering with adding and subtracting fractions with a range of denominators in maths. In English, we have been writing our innovate story for Varjak Paw; our children have had some AMAZING ideas, and have tried so hard to show pride in the appearance of their writing. In science, we conducted experiments into permeability and light. In Spanish, we reviewed colours, ready to describe clothing.

#### **Homework**

Thank you year 6s for working so hard on your homework! We have now received the SATs buster 10-minute booklets. These have been purchased for every child in year 6 to use each week to practise maths, spelling, punctuation and grammar, and reading.

This week, please complete Set A - Test 2 from each booklet; they will need to set a 10-minute timer for each test, and complete as much of that test as they can in the ten minutes. They do not need to mark these - we will go through them together on Friday morning. Therefore, please could they bring in their booklets on the Thursday, as this gives them one more night to remember if they forgot to bring it in.

#### **Times Tables**

Some children are finding it tricky to recall their tables facts, and this is making it difficult for them to solve fractions problems. Please could you help them to practise these - they could use:

- TT Rockstars
- Online games e.g. [Times Tables Games for 7 to 11 year olds](#)

#### **Reading reminder**

Our whole school expectation is that parents support their child to practising reading at home five times per week. This could be 5-10 minutes of reading, five times across the week. These reads can be logged on the Boom Reader app or website. Thank you for your support.
