

### **Barum Class - Home learning week ending 10<sup>th</sup> March**

Barum class have enjoyed changing our English text *How to Wash a Woolly Mammoth* into *How to Wash a Hairy Chimpanzee* this week! They have generated some funny ideas for the new set of instructions, ready to write the new version next week.

In Design and Technology, we have been designing a moving toy. The children were very creative and thought about the materials and tools they would need to make their designs.

In music, the children listened to and appraised 'Mars' from the 'Ten Planets' by Gustav Holst. We thought about how the music made us feel and drew pictures, we then explored the different tempos and dynamics within the music and started to think about which instruments we could hear in the orchestra.

We have been learning to divide by sharing this week and have also been using our 2 times table facts to solve multiplication and division problems.

**Home learning:** Please practice counting in twos, threes fives and tens. Use the [splat square](#) to do this. Choose a colour and tap the numbers as you count. What patterns do you notice? I have also set some My Maths to practice your 2's, 5's, and 10's timetables.

**Reading:** Please try to keep up your reading five times a week! Remember, it can be as little as 5 minutes a day 😊

Have a restful weekend!
