Head of School: Karen Lintin

### **Saunton home learning - 17.10.25**

This week in Saunton Class, the children have been exploring different styles of poems and using them to create our own class poem. In maths, the children have been solving addition and subtraction problems using money. In history the children have been studying pirate artefacts and have started to plan their own treasure hunts, like pirates! The children also really enjoyed the science fair and loved seeing how science is involved in so many different jobs.

### **Home learning**

Following the wonderful science fair, this week your homework is to use your own science skills. Follow the link below to the Marvin and Milo website then pick and have a go at one of the experiments at home. I can't wait to hear what you find out!

### **Reading**

Keep up all your fantastic reading, I love seeing you all reading so much each week! The whole school expectation is that parents support their child to practising reading at home five times per week. This could be 5-10 minutes of reading, five times across the week. Thank you for your support.

### **Time tables**

Please make sure you are practicing your timetables on times table rockstars for at least 5 minutes a day.
