Tarka class learning

We all had a lovely day at Rosemoor on Wednesday. The children enjoyed finding out about the edible parts of a plant, tasting pea shoots, spinach and mustard leaves and planting pea seeds. We used our learning in science to talk about the plants we could see growing and hunted for different vegetables and fruits in the vegetable garden. A huge thank you to the parents who helped on the day.

In English the children have started writing our shared story 'Poppy and the Balloon' based on their class text Orion and the Dark.

We have revisited fractions this week in maths. The year 1s have been finding a half and one quarter of a number and, as well as a half and one quarter, the year 2s have been working out what three quarters and a third of a number would be.

In computing the year 1 children have been working on their 'space race' project using Scratch Jnr and the year 2s enjoyed creating rhythms using audio software. We started our DT project to make a carnival headdress. The children looked at pictures of different carnival head wear and discussed with a partner the materials, textures, shapes, sizes and colours they could see and what they liked or disliked about the different headdresses.

Home Learning Task:

In preparation for transition day next week please think of three things you would like to achieve by the end of the next academic year. Bring these in for your new teacher to keep safe and we'll review them this time next year.
