Saunton Home Learning - 18.7.25

We have had a fantastic last full week of school! The children have all worked hard creating stone henge out of biscuits. In science we have tested rocks to identify their different properties and in English the children have been writing their own stories inspired by different photo prompts.

Class notices

Please ensure your child brings in a water bottle, hat and suncream, due to the heat. Additionally, please make sure your children are bringing in snacks if they want one at break time.

Home learning:

Reading

We expect everyone to be reading at least five times a week. Please see the front of your home learning book for the expectations.

Times tables

Make sure you are practicing your times tables on times table rock stars daily.
