Head of School: Karen Lintin

Barum class learning

This week in English we wrote some fantastic comic style stories about our own toys. We used verbs in the present tense and noun phrases to add description.

In maths, we practised solving subtraction problems with two 2-digit numbers and re-capped fact families using part whole models.

We had a fantastic week of focusing on DT. We have learnt what a structure is and how to make a structure stable and strong. We had a challenge to design and make a bridge to hold a toy and for a marble to roll across. We were very resilient as we found that being an engineer is hard work and we had to make lots of adjustments to our plans.

Home Learning

Next term, our topic is *Journey Through Time*. What do you think we might be learning about? Draw or write your ideas in your home learning book!

Have a lovely Easter holiday! We look forward to seeing you on Tuesday 22nd April.

Information

After Easter our PE day will be a Monday and we will have Forest School every Tuesday up until Half Term. Please can the children attend school in their PE kit on both these days and bring along their Forest School clothing in a bag on Tuesdays.

Reading

We expect children to be reading 5 times a week. Well done to those of you who managed to read 5 times this week! Keep up the great work.
