Head of School: Karen Lintin

## Barum home learning

This week in English we have practiced writing sentences using the subordinating conjunctions; when, if and after. We have written some fantastic clear instructions on how to make a pinch pot using imperative verbs to start our command sentences. We have made pom pom chicks in preparation to write our own set of instructions next week.

In Maths, we continued our learning of 'Multiplicative reasoning'. We have re-capped the different language for the multiplication symbol, we have written multiplication sentences to represent equal groups and have used and made arrays to match equal groups.

This week in Science we made predictions for how we thought our plants would grow in different conditions, we were amazed at the results of growing a sunflower seed in the dark with water! We have learnt about the life cycle of plants and have completed life cycles for a strawberry seed and a sunflower seed.

In History, we have finished our unit about the Victorians, we have returned to and answered our original research question, would you rather be a child living in the Victorian Era or now?

This week in RE we have explored the different signs we see around us, that tell us Easter is approaching. We have remembered the Easter story and have sequenced the events of the Christian Holy week.

## Home Learning

Please have a go at making an Easter decoration for the classroom.

## PE

Our main PE day is on **Thursday**, please could the children come to school in their PE kits on **Thursdays**. For safety reasons, if your child wears earrings please remove them for school on Thursdays, if they cannot be removed please cover the earrings with tape before coming to school.

## Reading

We expect everyone to be reading at home at least five times a week. Reading journals and books must be brought into school every day for reading in class.
