

Executive Head Teacher: Melanie Smallwood  
Head of School: Karen Lintin

## Exmoor Home Learning - 28.3.25

We have had a wonderful week writing our Innovated pieces of writing in English, honing in on the skill of editing and improving. In maths, the children have been working hard on comparing fractions and finding equivalent fractions. In Science, the Y4s did some sound investigation and the Y5s learned all about solutions and solubility.

## Home learning:

### Reading

We expect everyone to be reading at least five times a week. Please see the front of your home learning book for the expectations.

### Clock Change

Don't forget the clocks are changing on Sunday, help your adults to change all the clocks and watches in the house!

### English

Start thinking about your own version of Cinderella that you will write for your Invent, draw a picture of the main character you want in your story.

### Year 4 times table test

The year 4 times table test is fast approaching, in anticipation of this please practice as much as you can on the website below. It is very similar to how the actual test works.
