

## Home Learning - Week 33

This week we have been learning about snails and have read the story 'Snail Trail'.

- This week we have made observations of snails and have tried hard to write sentences independently about what we can see, notice and know about them.
- We have created pictures of snails using pastels created by spiral marks.
- In Maths we have learnt about the numbers 11, 12, 13, 14 and have represented them using Numicon, part-part whole, tens frames and objects.
- We have painted some wonderful self-portraits using watercolours by making careful observational drawings of what we look like.
- In Letters and Sounds we have focussed on the sounds 'oo, oo, ar' and have practised reading and writing longer ccvc and cvcc words using these sounds.

### Home Learning Task:

Go on a number hunt. See if you can spot the numbers 10-20. You might find them on doors, signs and packets and labels. You could even have a go at writing some of them.

Please remember to read five times and record it in your reading diary.

Please could we ask that all jumpers are clearly marked with your child's name, with the arrival of slightly warmer weather the children are taking their jumpers off more often and it is tricky for us to ensure that everyone goes home with the correct one unless they are clearly named.

Sun Hat/Cream - Now that the warmer weather has arrived please could you ensure that your child brings a **named sun hat** to school every day and **suncream (named)** that can be kept at school. (Thank you to everyone who has already done this).

We hope you have an enjoyable weekend,

Mrs Paul, Miss Burnell and Cheryl.
