

Executive Head Teacher: Melanie Smallwood

Head of School: Karen Lintin

Barum home learning

This week in English we have independently written some super recounts about our Victorian day, using time connectives and present progressive verbs.

In Maths, we have continued our learning about collecting, presenting and interpreting data. This week we have learnt to draw and interpret pictograms; exploring different keys using pictures to represent either 2, 5, or 10 to present our data.

This week in Science we started our new unit 'Plants'. We learnt that all plants grow from either seeds or bulbs. We then explored different seeds using magnifying glasses to compare the seeds noticing the different colours, shapes and sizes. We had a go at planting our own seeds, we are very excited to see our plants start to grow!

We all had a wonderful day on Friday celebrating 'World Book Day', all the costumes were amazing. A huge well done to all those that brought in their awesome book character spoons, you all put in a lot of effort. We enjoyed world book day themed learning and activities with hot chocolate and cookies in the afternoon!

Home Learning

To support our learning in Science, please could you investigate what plants and trees you can find in either your garden, favourite park, or woodland area. You could make a list, draw and label pictures or draw a plan labelling all the plants and trees you found.

PE

Our main PE day is now on **Thursday**, please could the children come to school in their PE kits on **Thursdays**. For safety reasons, if your child wears earrings please remove them for school on Thursdays, if they cannot be removed please cover the earrings with tape before coming to school.

Reading

We expect everyone to be reading at home at least five times a week. Reading journals and books must be brought into school every day for reading in class.
