Head of School: Karen Lintin

## Barum class learning

This week in English, we have started our new unit, story writing. Using the text 'Traction Man' by Mini Grey. We have enjoyed listening to the story and creating a story map and we have enjoyed playing with our toys.

In Science, we received a letter from Humpty Dumpty, he has asked us to find a material that is comfortable and protective, to help protect him if he falls off the wall again. The children have planned an investigation to test different materials, which we are looking forward to carrying out next week.

This week in ICT we have been creating rhythms with percussion instruments and also making rhythms on the laptops.

## Home Learning

To support our learning in Science, have a look at objects around your home to see how many different types of materials are in your home, find out what most common material in your home is, you could make a list or draw some objects and label what materials they are made from.

In addition, to support our learning in ICT have a go at music lab 'Rhythms'. Once logged in click on the monkey playing drums. [Music lab rhythm](#)

## Reading

We expect children to be reading 5 times a week. Well done to those of you who managed to read 5 times this week! Keep up the great work.
