

Home Learning

This week we have continued with our topic 'Under the Sea'.

- This week we have written sentences to retell the story of 'Sally and the Limpet'. We tried hard to remember to leave spaces between each word and finish with a full stop.
- We have created under water sea pictures using the wax resist technique.
- In Maths we have learnt about pairs of numbers that equal 10, we have used words such as add, plus, addition, all altogether, total, equals.
- In Letters and Sounds we have learnt to read and spell polysyllabic words such as: windmill, sandwich.
- Thank you so much to the families who were able to support our Early Years Sports Morning, it was so lovely to see everyone having so much fun together.
- Thank you very much to everyone who donated and bought toys for the Toy Sale, we have managed to raise £140 towards developing our new stage area!

Home Learning Task:

Next week we will be learning about pollution in the ocean. Have a look in your recycling box at home. Can you sort the rubbish into different types? Think about what each item is made of, talk to a grown up about what things can and can't be recycled. Can you find objects made of cardboard/paper, metal, plastic, glass?

Please could all children bring in a small plastic drinks bottle that we can use for a craft activity next week, approximate size 500ml - 1lt.

Please remember to read five times and record it in your reading diary.

We hope you have a lovely weekend,

Mrs Paul, Ms Burnell and Cheryl.
