Tarka class learning

In English, the children have been writing our shared story 'How to Wash a Hairy Chimpanzee'. They practised writing in sentences using imperative verbs and used exclamations to engage the reader.

In maths the year 2's have been using data to create tables and used the information to answer questions. The year 1's have been showing us what they already know about money, time and measuring ready for our learning next week.

The year 2 children helped Mrs. James plant seeds and predicted what will happen to the seeds in different conditions and why.

In computing, the year 1 children finished their digital painting of Kandinsky's Concentric Circles, and we compared their actual painting with their digital one and talked about which they found easier to do. The year 2's programmed a sequence of commands with a start and end using Scratch junior. We talked about what collage is in art and the children created some lovely flower collages using paper, corrugated card, fabric and tissue paper.

The year 1 children had a great time at the multi-skills festival at Park school this week. We were very proud of how they all represented the school and the effort they put into the activities.

Home Learning Task:

Can you see any plants where you live? The plants might be in your garden, a shop, a park. Do you know the name of the plants? Do the plants have flowers or are they growing fruit or vegetables? Create a picture of one of the plants you have seen. Can you write any information about the plant?
